

# SYRUP TRIFOLIUM COMP.

—O—

## An Improved Alterative and Antisyphilitic.

—O—

EACH FLUIDOUNCE CONTAINS THE ACTIVE CONSTITUENTS OF 32 GRAINS RED CLOVER, 16 GRAINS EACH OF STILLINGIA, BURDOCK ROOT, POKE ROOT, BERBERIS AQUIFOLIUM, AND CASCARA AMARGA, 4 GRAINS PRICKLY ASH BARK, WITH 8 GRAINS OF POTASSIUM IODIDE.

—O—

This syrup is recommended as superior in efficacy to the combination of alteratives that has recently acquired considerable notoriety under the name of Bamboo-brier Root compound or simply Alterative compound. Experience with this latter combination led to the belief that the formula could be greatly improved, and after many clinical tests the combination represented in this preparation was adopted as that best adapted for general use. Its restorative action in nearly every case of secondary syphilis is prompt and unequivocal. Send for literature.

# Hypodermic Case.

—O—

We have just added to our list a new, morocco-covered, silk-lined, hypodermic case, containing a hypodermic syringe of improved construction, together with 25 tablets (see next page) each of the following selection:

Morphine muriate . . . . .	1-10 gr.
Atropine sulphate . . . . .	1-50 gr.
Omnopine sulphate . . . . .	1-4 gr.
Morphine and atropine, No. 2:	
Morphine sulphate . . . . .	1-4 gr.
Atropine sulphate . . . . .	1-150 gr.
Mysostigmine sulphate . . . . .	1-100 gr.
Trychnine sulphate . . . . .	1-50 gr.

—

## PRICES.

Case filled, <i>with syringe</i> . . . . .	\$3 00
Case filled, <i>without syringe</i> . . . . .	2 00

We furnish these cases *without syringes*, if desired. The syringes supplied with these cases, however, are of the best approved construction, and will be good instruments, even to those who already have hypodermic syringes.

# HYPODERMIC TABLETS.

---

We desire to call the especial attention of the medical profession to the following line of Hypodermic Tablets, which we have recently added to our list. They are very soluble, accurate and permanent. We have also just put upon our list of manufactures a new hypodermic case. Please see preceding page.

Prices and detailed printed information upon application.

Aconitine, crystals.....	1-120 gr.
Homomorphine muriate .....	1-10 gr.
Atropine sulphate.....	1-50 gr.
" "	1-100 gr.
Cocaine hydrochlorate.....	1-4 gr.
Coniine hydrobromate.....	1-8 gr.
Colchicine .....	1-30 gr.
Corrosive Subl'te and Urea.	1-25 gr.
Digitalin, amorphous .....	1-100 gr.
Gelsemine muriate .....	1-50 gr.
Hyoscine hydrobromate...	1-100 gr.
Hyoscyamine .....	1-50 gr.
Morphine sulphate.....	1-4 gr.
" "	1-8 gr.

## Morphine and atropine, No. 1:

Morphine sulph. .... 1-8 gr.

Atropine sulph. .... 1-200 gr.

## Morphine and atropine, No. 2:

Morphine sulphate 1-4 gr.

Atropine sulphate 1-150 gr.

Picrotoxin .....

1-50 gr.

Pilocarpine hydrochlorate... 1-3 gr.

" nitrate..... 1-3 gr.

Physostigmine sulphate... 1-100 gr.

Sodium arseniate..... 1-10 gr.

Strychnine sulphate..... 1-50 gr.

" ..... 1-100 gr.

# FORMULÆ

OF

Sugar & Gelatin-Coated Pills,

---

MANUFACTURED BY

PARKE, DAVIS & CO.,

DETROIT, MICH., AND NEW YORK CITY,

U. S. A.

THE FOLLOWING LIST comprises most of the official and popular formulæ known to the profession, and to which we have added many new and valuable combinations.

Our pills are made entirely by hand, from the purest materials and are coated by a method avoiding the application of any degree of heat which could impair their efficacy.

We direct especial attention to the perfect distribution of the ingredients and permanent softness of the mass.

For superiority of finish, ready solubility and uniformity of coating, our pills are unexcelled.

The formula in each instance is strictly followed, irrespective of cost, and the entire process conducted under scientific management and by improved methods.

Particular care is taken to insure the prcservation of the drug.

They are put up for the trade in bottles of 100 or 500 pills each, *excepting a few pills of Rare Alkaloids*, which are put up in bottles of 25 each, for list of which see page 38.

 Special quotations for  
pills of special formulæ or

## PINK GRANULES (Sugar-coated.)

---

These granules are intended to supply the needs of physicians in such cases as require minute or frequently repeated doses. A glance at the list will show that they are distinguished from our regular line of pills in that they represent doses suitable for children. This diminishes the risk there might otherwise be of giving to a child an overdose of some powerful remedy. At the same time their distinctive color renders them attractive to the class of patients for which they are intended.

As we have not the protection of a government copyright or trademark on the name "Pink Granules," we are enabled to offer these granules at about one-half the price of similar articles in the market. We guarantee the material to be unqualifiedly the best.

## PILLS OF

## RARE ALKALOIDS

ETC. IN BOTTLES OF 25  
AND 100 EACH.

---

This is an entirely new addition to our list, and will be found acceptable to those physicians who prefer the more concentrated medicaments to the old-fashioned infusions, decoctions and compounds. For the convenience of both the trade and profession they are put up in bottles of 25 each, and are all gelatin-coated, with the single exception of Hyoscine hydrobromate, which is sugar-coated only.

---

Adonidin .....	1-10 gr.
Colchicin .....	1-60 gr.
Colocynthin .....	1-8 gr.
Convallamarin .....	1-12 gr.
Daturine sulphate.....	1-100 gr.
Elaterin.....	1-20 gr.
Hyoscine hydrobromate,	1-400 gr.
Hyoscyamine, pure .....	1-200 gr.
Muscarine sulphate.....	1-100 gr.
Pilocarpine hydrochlorate,	1-16 gr.
Physostigmine salicylate,	1-100 gr.
Soullitoxin.....	1-300 gr.

## FILLED SOLUBLE ELASTIC CAPSULES OF QUININE & CINCHONIDINE SULPHATE.

---

We present on the following page a list of Soluble Elastic Capsules filled with Quinine and Cinchonidine in dry powder form. These Capsules differ from the fluid filled Capsules, which we have had on the market for several years and which have achieved such merited popularity, only in the nature of their filling. Their superiority as a device for administering quinine will be conceded by all who are familiar with this class of goods.

The contents of every Capsule are separately and carefully weighed before being encapsuled, and we are thus enabled to guarantee the correctness of the quantity specified on the label.

It will be observed that to our one, two and four grain capsules a certain quantity of sugar of milk is added. This is for the purpose of bringing the capsules to a uniform size and prevent the possible collapse of a partially filled capsule.

List  
No.

## FORMULÆ.

- 206 Cinchonidine Sulphate. 1 gr.  
Each capsule contains:  
Cinchonidine sulph., 1 gr.  
Sugar of Milk, 2 gr.
- 207 Cinchonidine Sulphate. 2 gr.  
Each capsule contains:  
Cinchonidine sulph., 2 gr.  
Sugar of Milk, 2 gr.
- 208 Cinchonidine Sulphate. 3 gr.  
Each capsule contains:  
Cinchonidine sulph., 3 gr.
- 209 Cinchonidine Sulphate. 4 gr.  
Each capsule contains:  
Cinchonidine sulph., 4 gr.  
Sugar of Milk, 1 gr.
- 210 Cinchonidine Sulphate. 5 gr.  
Each capsule contains:  
Cinchonidine sulph., 5 gr.
- 201 Quinine Sulphate. .... 1 gr.  
Each capsule contains:  
Quinine sulph., 1 gr.  
Sugar of Milk, 2 gr.
- 202 Quinine Sulphate. .... 2 gr.  
Each capsule contains:  
Quinine sulph., 2 gr.  
Sugar of Milk, 1 gr.
- 203 Quinine Sulphate. .... 3 gr.  
Each capsule contains:  
Quinine sulph., 3 gr.
- 204 Quinine Sulphate. .... 4 gr.  
Each capsule contains:  
Quinine sulph., 4 gr.  
Sugar of Milk, 1 gr.
- 205 Quinine Sulphate. .... 5 gr.  
Each capsule contains:  
Quinine sulph., 5 gr.
